EDUCATION

Islamic Azad University Of Karaj

Bachelor Degree, Computer Software Engineering

2022 – present

Shahid Beheshti University

Associate degree, Biomedical Engineering

2019 – 2022

LANGUAGES

Persian(mother tongue)
English(Fluent)

- Psyport(sample code sharable due to company policy)[UI Design and Frontend Development]

Psyport is a dynamic web application that is designed to sell and monitor psychological tests for individuals and organizations of all sizes.

As the **lead developer** on this project, I was responsible for creating an intuitive user interface and ensuring seamless functionality across all panels. Through my work on Psyport, I gained valuable experience in **React.js development** and **project management**.

- Bluetek [UI Design and Frontend Development]
- Blue Wallet [UI/UX Design for crypto wallet app]

As a key contributor to the Bluetek project, I successfully designed and developed 5 unique landings and profiles, including Bluetek, Blue Swap, Blue Market, Blue Lands, and Blockchain Game.

This involved creating over 15 HTML pages that were both **visually appealing and user-friendly**.

My expertise in **UI design** and **vanilla coding** allowed me to effectively structure each page to meet the specific needs of the **crypto-focused** website.

- Modernist [UI Design and Frontend Development]

Modernist is a personal project that showcases my expertise in **HTML template design**.

It features a highly customizable HTML Template with four editable options and 12 color palettes to choose from, allowing users to create unique and personalized designs.

- Park Speedy [UI/UX Design]

Park Speedy is a Figma project that showcases my **UI/UX design** skills for a startup app aimed at solving parking space issues.

- Academy Hamrah [UI/UX Design]

Designed and developed a responsive UI/UX for Academy Hamrah's game developing event using Figma.
